

[BlockChain]

1조

Simple is the Best

Content

1. Team Introduction
2. Use Case Diagram
3. System Context Diagram
4. Collaboration Diagram
5. Clustering
6. Complete Task Structuring
7. Demo
8. What we learned

Team Introduction

LEE JAE HA

CHO KYU JIN

MIN HYUN HONG

JUNG JAE HEON

LEE SANG HYUP

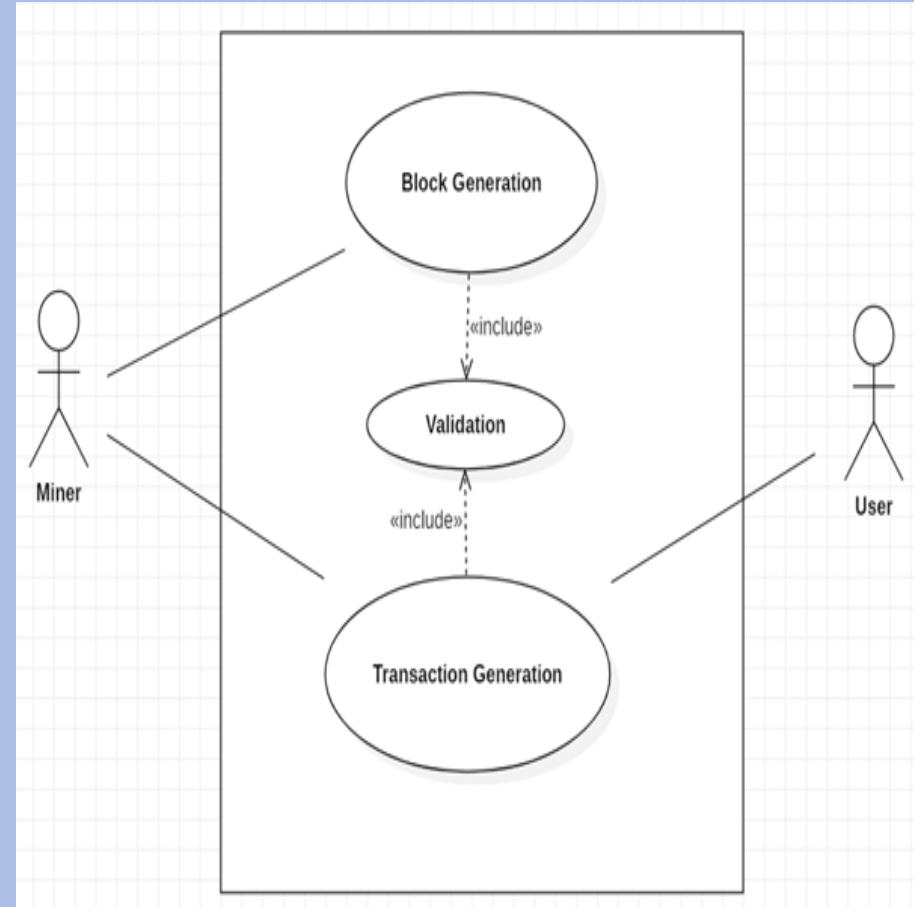

JANG JI HOON

AHN SI HYUN

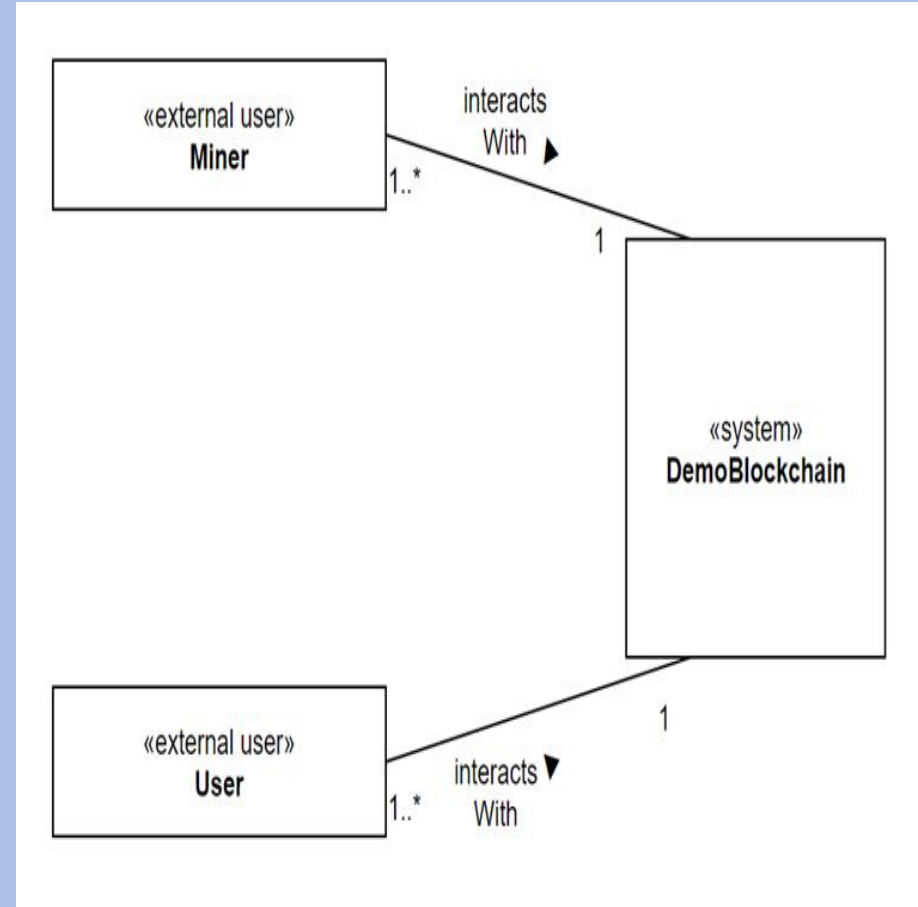

Use Case Diagram

- diagram of the various use cases of the system
- Actor : User & Miner
- use case
 - validation
 - transaction generation
 - block generation

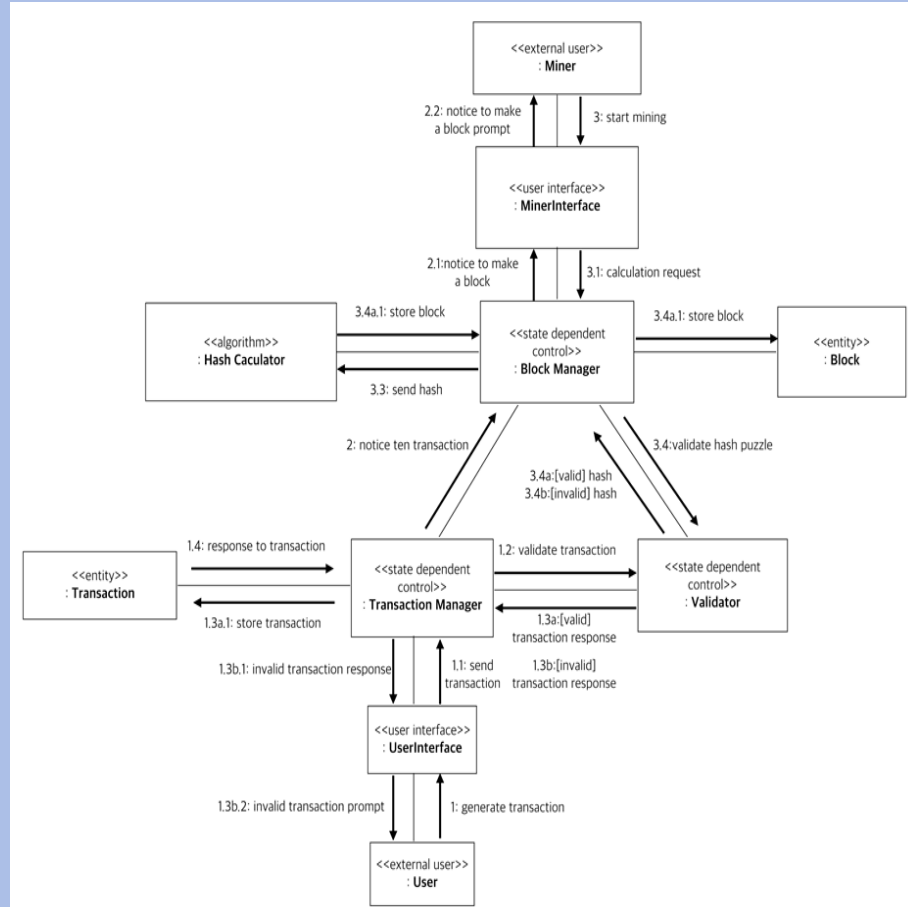

System Context Diagram

- Defines the system you want to develop as one object
- entity
 - Miner & User

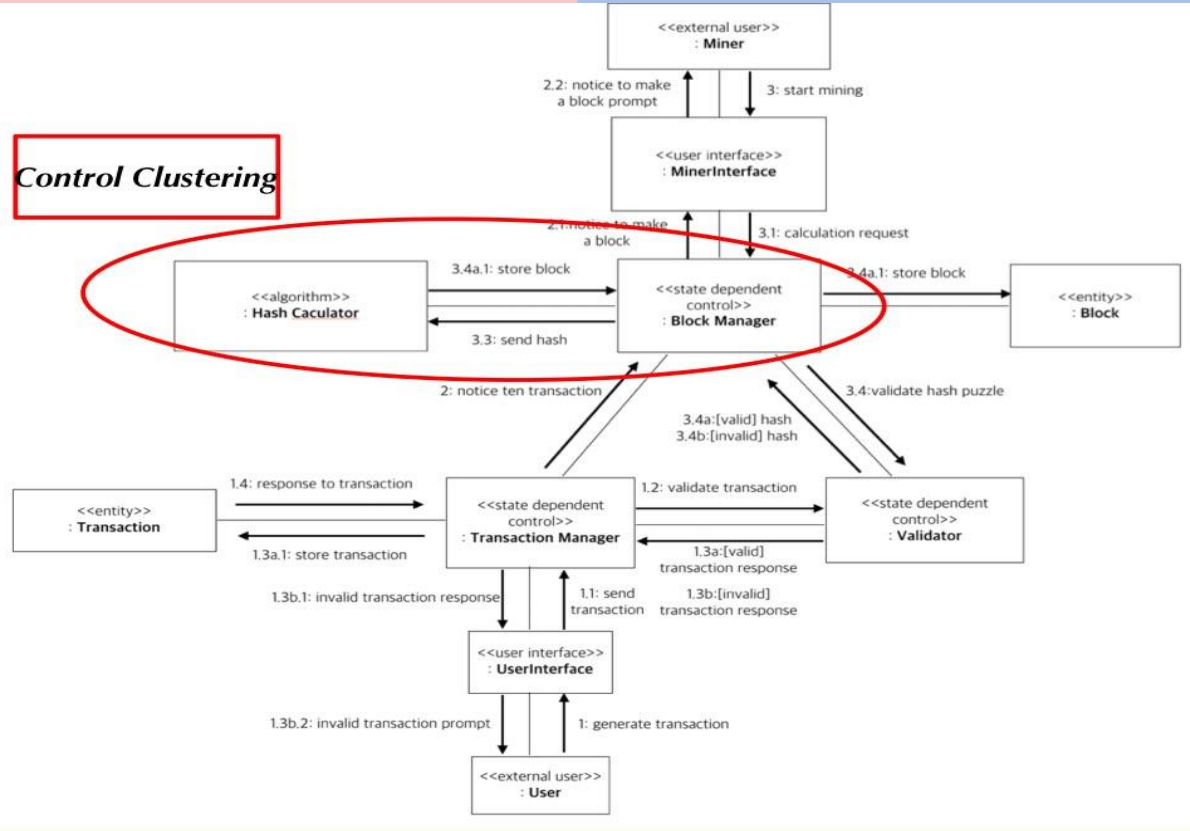

Collaboration Diagram

- step1
: user's transaction progress
- step2
: generate block and control
- step3
: process of mining

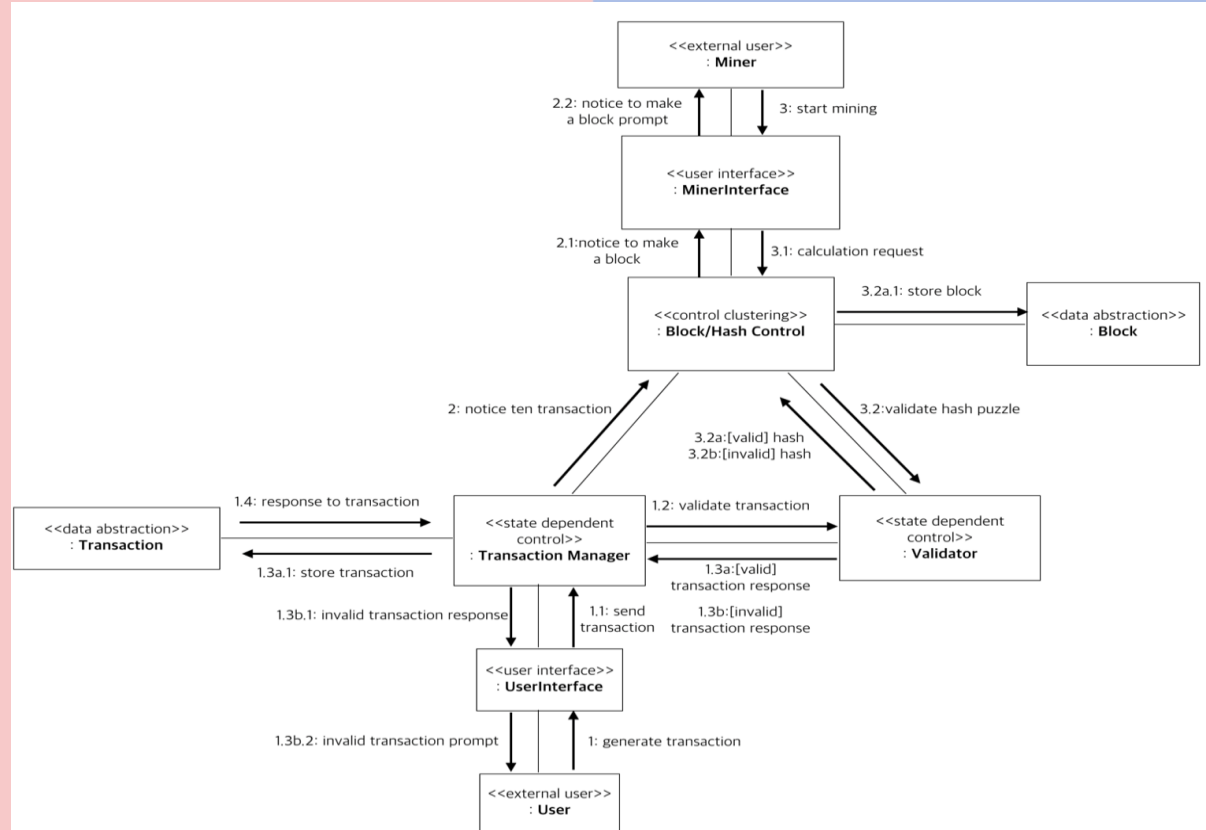

Clustering

Control Clustering

Complete Task Structuring

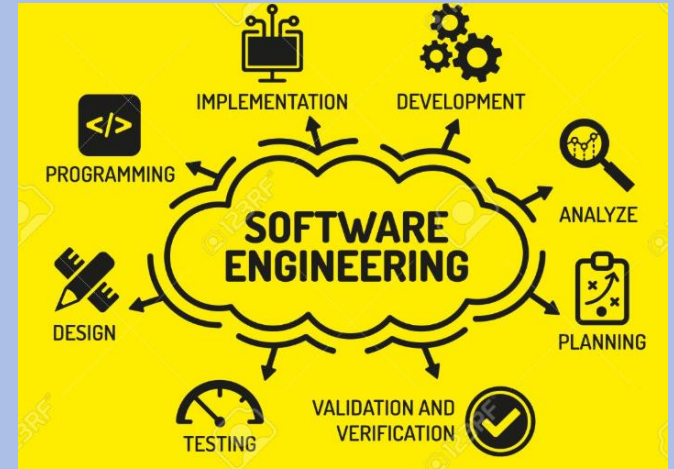

Demo Video

What We learned?

- What SE is?
- Why SE is
- What is Block-Chain

Thank you
